

Nigerian Content Policy Statement

Aluminium Gold Engineering is a 100% indigenous Nigerian Company. The board of directors and Shareholders including the Managing Director include Nigerian nationals.

Capacity Development

Aluminium Gold Engineering promotes the improvement of its workforce by encouraging training. This means that our directors and consultants regularly upgrade their skill through Continuing Professional Development Courses which they apply in the work environment.

Recruitment

In accordance with the Nigerian Government policy and directives on labour resourcing, Aluminium Gold Engineering will endeavour to, wherever possible, recruit Nigerian personnel resident in, or belonging to, the communities where we undertake a project .

Materials

Aluminium Gold Engineering wherever possible utilises locally manufactured materials such cement for building projects.

Our preferences for locally sourced and manufactured materials helps support local businesses and sustain employment in those industries.

Local businesses

Aluminium Gold Engineering supports Nigerian based businesses by utilising the services of many locally based companies and institutions such as Banks, Insurance Companies, Auditors, Solicitors, etc. to support its ever growing portfolio of services.

Signed:

Imeobong Utuk MSc BEng MIET

Managing Director

Aluminium Gold Engineering Limited (01 February 2016)
